LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

RC Technologies (“the Cooperative”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Cooperative operates are outlined in its local exchange tariff, which is approved by the South Dakota Public Utilities Commission (“South Dakota PUC”). The tariff contains provisions regarding the Cooperative’s customer service and protection practices.

Service quality standards for voice service are established by the South Dakota PUC. The Cooperative consistently meets or exceeds those standards and provides reports to the South Dakota PUC, in accordance with the South Dakota PUC’s rules.

With regard to broadband service, the Cooperative provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Cooperative. The Cooperative also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require the Cooperative to publicly disclose information regarding its network management practices, performance, and the commercial terms of its broadband services.

The Cooperative complies with any and all consumer protection obligations under state law.

The Cooperative also complies with the following consumer best practices: (1) the Cooperative discloses its rates and terms of service to customers; (2) the Cooperative provides specific disclosures in its advertising; (3) the Cooperative separately identifies carrier charges from taxes on its billing statements; (4) the Cooperative provides ready access to customer service; (5) the Cooperative promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Cooperative abides by policies for protection of consumer privacy.

Finally, the Cooperative has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011).

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

RC Technologies (“the Cooperative”) is able to function in emergency situations for both voice and broadband service. The Cooperative can ensure functionality without an external power source. All of the Cooperative’s digital loop carriers’ (DLCs) remote locations and central offices have an eight hour battery backup system. The Cooperative has a fixed generator at its central offices and portable generators for its remote DLCs.

The Cooperative uses a 10 Gig Ethernet ring throughout its network. It also uses an OC48 ring shared with adjoining companies. These provide diverse routing in case of a cable splice or other outage. The same local loop serves both broadband and voice services.

The Cooperative has adequate switching facilities to manage traffic spikes resulting from emergency situations. It can take reasonable steps to reroute traffic or add capacity to manage traffic spikes throughout its network as emergency situations require. Broadband bandwidth is monitored on a regular basis. If usage peaks near the allotted bandwidth, the Cooperative can add additional bandwidth as needed.

LINE 920 – TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION

A portion of RC Technologies' ("the Cooperative") study area is on the tribal lands of the Sisseton Wahpeton Oyate tribe. In 2016, the Cooperative sent a letter via certified mail to the Sisseton Wahpeton Oyate tribal government seeking to engage on the issues set forth in Sec. 54.313(a)(9) of the FCC's rules. The letter was sent on June 30, 2016 and received by the tribe on July 5, 2016. The letter and certified mail receipt are attached.

To date, there has not been a response from the Sisseton Wahpeton Oyate tribal government. The Cooperative will continue its outreach to the tribal government and is prepared to discuss with them the issues delineated in Sec. 54.313(a)(9).

Dear Chairman Flute:

The Federal Communications Commission (FCC), as part of its 2012 Order reforming the federal universal service mechanisms related to telecommunications and information services, adopted new "Tribal Engagement" provisions that are intended to improve communications and foster a greater understanding between service providers and Tribal entities of the factors necessary to deploy and sustain telecommunication services on Tribal lands. *See* FCC Public Notice, Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Engagement Obligation Provisions of the Connect America Fund DA 12-1165, released July 19, 2012.

Pursuant to the FCC's rules related to Tribal Engagement RC Technologies would, as soon as possible, like to begin discussions with Sisseton-Wahpeton Oyate in a manner consistent with the FCC rules. Accordingly, we would request a meeting with the Tribe and it is our hopes that this meeting could be held sometime prior to the end of October, 2016. The purpose of this meeting will, generally, be to exchange information related to the deployment and provisioning of communications services on Tribal Lands.

While RC Technologies leaves to your discretion attendees from the tribe at this requested meeting, it is important that at least some of the tribal representative attendees at the meeting are "decision makers", as this can change the perspectives of the discussions. RC Technologies asks that Sisseton-Wahpeton Oyate provide a name and contact information for a Tribal representative who can assist in scheduling and arranging a meeting with the appropriate Tribal government staff and leaders to discuss deployment and sustainability of telecommunications services on Tribal lands. This information may be provided to the undersigned by calling (605) 637-5211 and ask for Scott Bostrom, or thru email directed to sbostrom@tnics.com.

Thank you for your cooperation in this matter. We look forward to discussing these important matters with you.

Sincerely,
Scott Bostrom, General Manager, RC Technologies

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau’s 2017 reasonable comparability benchmark for voice services is \$49.51, which includes the federal subscriber line charge (“SLC”).¹

In all of the exchanges served by RC Technologies (“the Cooperative”), the single-line residential local rate in effect as of January 1, 2017 was \$18.00. When the federal SLC (\$6.50) is included, the total rate was \$24.50. Therefore, the Cooperative’s pricing of fixed voice services is less than the reasonable comparability benchmark of \$49.51.

¹ *Wireline Competition Bureau Announces Results of 2017 Urban Rate Survey for Fixed Voice and Broadband Services, Posting of Survey Data and Explanatory Notes, and Required Minimum Usage Allowance for ETCs Subject to Broadband Public Interest Obligations*, Public Notice, WC Docket No. 10-90, 32 FCC Rcd 1358 (2017).

LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY

As of January 1, 2017, RC Technologies was charging a residential rate of \$59.95 for broadband providing 10 Mbps download, 1 Mbps upload, and an unlimited usage allowance. This rate is lower than \$77.98, which is the 2017 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.¹

¹ *Wireline Competition Bureau Announces Results of 2017 Urban Rate Survey for Fixed Voice and Broadband Services, Posting of Survey Data and Explanatory Notes, and Required Minimum Usage Allowance for ETCs Subject to Broadband Public Interest Obligations*, Public Notice, WC Docket No. 10-90, 32 FCC Rcd 1358 (2017).

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Residential customers of RC Technologies (“the Company”) residing on non-Tribal lands who qualify for the Lifeline Program receive a federal discount of \$9.25 on local voice telephony service. Residential Lifeline customers of the Company residing on Tribal lands receive a discount of \$24.50 on local voice telephony service (\$9.25 federal discount + additional \$15.25 federal discount).

Throughout the Company’s study area, the Lifeline single-line residential rate for non-Tribal customers, including the federal subscriber line charge (“SLC”), is \$15.25 (\$24.50 standard rate - \$9.25 discount). The Lifeline single-line residential rate for customers residing on Tribal lands, including the federal SLC, is \$0.90 (\$24.50 standard rate - \$23.60 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

For calls outside of the local calling area, Lifeline customers may subscribe to long distance service offered by RC Long Distance at non-discounted rates. Customers may choose from several plans: (1) 90 minutes for \$8.00/month, (2) 200 minutes for \$15.00/month, or (3) \$.14/min. Lifeline customers may also choose another long distance carrier. Customers may elect to subscribe to toll blocking at no charge.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

Lifeline customers may subscribe to any service bundle offered by the Company that includes voice telephony service and will receive the applicable Lifeline discount off the regular price of the bundle.

Additional information regarding the terms and conditions of voice telephony Lifeline plans can be found at <http://www.tnics.com/services/telephone/telephone-assistance/>

LINE 3010 – CERTIFICATION OF PUBLIC INTEREST OBLIGATIONS

RC Technologies (“the Cooperative”) hereby certifies that the Cooperative has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service were met within a reasonable amount of time.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.
